

MYRIAD CONSULTING LTD

We are Independent Consultants who assist clients in Implementing, Optimising, Supporting, Re-Engineering and Project Managing their Agresso ERP Implementations

## Born in 2003 at a time when the independent Agresso market was emerging

Harpal Mattu the founding member was provided with an insight into Agresso whilst working as a Senior Product Consultant for Fraser Williams Financial Systems.

Prior to implementing Agresso, Harpal was also a Dynamics Consultant and is a Qualified Management Accountant.

More recently, Harpal has successfully obtained an MBA from the prestigious Henley Management College where his major was Project Management.

### Where are we today & where are we going

Myriad Consulting have been a success story! They've grown organically over the previous few years and have been instrumental in helping many organisations with their Agresso implementations.

The Myriad Consulting Team is joined together by other talented Agresso Professionals who share the common vision:

"To offer a satisfactory service to our clients ensuring the best accountancy, systems and management practices are adopted."

We are not resting on our laurels.

The emerging pipeline of work is already looking exciting!

Also, the range of services that we will be offering in the future will increase.

We are currently evaluating new software that will complement the Agresso System. So, watch this space...

**"Agresso is a world renowned Finance System. It is used in approximately 1950 companies across North America and Europe.**

Many of these tend to be people centric companies from the Public Sector, Higher Education, Professional and Commercial Services sector.

It's not simply the rich product functionality provided by a modern, fully integrated business information system. The ultimate reasons they've chosen Agresso is because it is designed for and with people-centric organisations. This enables them to:

- Address their large requirement for real time business information
- Significantly increase employee empowerment across their organisation, allowing the decentralisation of responsibilities
- Rapidly and continuously respond to the change and growth challenges they face as their business evolves
- Deliver improved or new services to meet their customers demands"

## A bit about Agresso Business World

Agresso Business World is a fully-integrated suite of ERP solutions designed for companies and organisations characterised by almost frenetic levels of dynamic business change.

Agresso Business World provides organisations with the agility necessary to respond to business change long after the initial implementation is complete, delivering an Enterprise Resource Planning (ERP) solution that withstands the test of time.

The solution has been touted by industry analysts as unique among ERP competitors due to its unusually tight coupling of data management (Information Warehouse), process modeling (Business Processes) and information delivery (Reporting and Analytics). A single change made to your organisation's data or business processes is reflected throughout the solution.

## Agresso Business World: Fully-Integrated ERP Suite

Agresso Business World provides all of the essential functions needed by professional services and public sector organisations. Its focus on people-centric organisations and its deep understanding of their inherent business challenges and opportunities has led the company to achieve number 1 market leadership position in several European countries and is well on its way in North America.

Agresso Business World offers the following role-and Web-based solutions:

- Financial management
- Human resources and payroll
- Project management
- Procurement management
- Field Service Management & Asset Maintenance
- Reporting & Analytics
- Business Process Automation

Over 2,600 highly dynamic BLINC (Businesses Living In Change) organisations in over 100 countries around the world appreciate the Agresso advantage. From Parliament to the world of computer gaming, to Professional services, Local government, Health, Education, Travel, Publishing, Media, and Financial services, these organisations realised their investment was not only about meeting the requirements they see today, but most of all an investment to meet the requirements of tomorrow.

## Services offered by Myriad Consulting

Myriad Consulting offer an array of services which can complement or compensate either in house services or the consultancy offering provided by Agresso.

### Project Management

Myriad Consulting have built up experience in managing effective systems projects. Consultants include Prince2 practitioners.

Myriad Consulting adapt practical Project Management Techniques which are easy to understand and follow.

Also, the Finance and Systems experience gained often means the plans produced are reliable and realistic.

### Implementation

Myriad Consulting have been involved in many Agresso Implementations, be it Corporate Wide, at Subsidiary level or even at departmental level.

This experience gained means they know how to

implement and plan effective systems

We are confident that we can save both time and money in systems implementation.

### Optimisation/Health Check Services

Myriad Consulting offer an optimisation service which has proved beneficial to many clients.

This service is aimed at existing users who may not be achieving the full benefits the system can provide.

The optimisation covers areas such as:-

- Accounts Payable
- Accounts Receivable
- General Ledger
- Making best use of relations, account rules and value matrices
- Optimising screen layouts

- Building interfaces
- Reporting
- System Development
- Better use of associated tools
- E-Procurement

This list is not exclusive. Myriad Consultants have very in-depth knowledge of the Agresso Product as well as business processes, therefore are open to look at any area of Agresso that could be causing problems for clients.

### Upgrade Services

Myriad Consulting have successfully been involved in taking existing clients through upgrade route, mainly going from Agresso 54 to 55.

These services are to name just a few.

### Our list of satisfied clients include:

- Agresso Ltd
- Bromsgrove District Council
- Calyx Software (Formerly Mentec)
- Crest Nicholson PLC
- Dudley Metropolitan Borough Council
- London Borough of Redbridge
- RAC PLC
- St. Andrew's Healthcare
- Wyre Forest District Council
